Action Guide

**Emmanuel Ofosu
Yeboah**

1. Help People

Emmanuel talk about how everyone has specific skills and talents and the best way to help other people is to use your specific attributes.

How Does It Apply?

Write down below what your skills and talents are. Now try and figure out a way that you can use these to help other people.

2. Ask for Help

In the same way that you are willing (and wanting) to help people, there are certainly people who will be willing to help you.

How Does It Apply?

Write down below some areas that you feel that you need help in, which you think that you can get from other people – it may be advice, or learning something, for example.

3. Go for it!

Emmanuel describes how he managed to get in touch with Oprah and the presidents of the USA and Ghana by literally writing to them and asking. He aimed for the top and got there just by being honest and humble.

How Does It Apply?

Write down some of your most far out ideas which you think will never happen. Now write down what you think you need for this to happen and give it a go.
