Action Guide

Michael Gerber

 Action Guide

1. Transformation

Michael Gerber brings up a debatable point regarding the use of technology. He thinks people live without questioning the purpose of life so they leave it to the people who are supposedly "smarter" than them, like the technologists.

Do you think technology has taken over your life? Do you go everywhere with your phone? Think about it: Does this piece of device interfere with your human life or interaction with other humans?

2. Make a change

Dave Ramsey summarizes the [20 things](#) rich people do on a daily basis, based on Tom Corley's philosophy (richhabitsinstitute.com). Creativity, the juice of Michael Gerber's life, is among the habits, as well as maintaining a healthy lifestyle, reading, keeping a to-do list, and caring about the people.

Click on the hyperlink, read the list, and see what are the bad habits you need to get rid of.
